The MAXSafe® Trademark has become well known, has a proven track record, and is respected across many industries.

Our extensive range of safety signs has helped us to become the partner of choice for a wide range of clients in many different industries. Our custom signage manufacturing capability includes state of the art printers and an in-house graphic design team to ensure quality products and a quick turnaround.

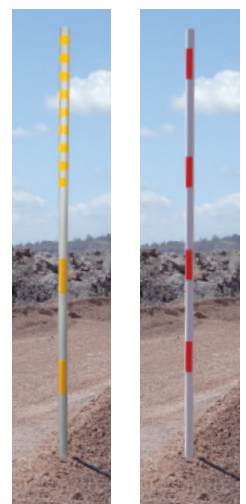

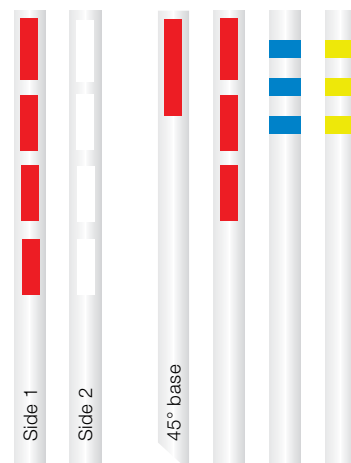

### DELINEATOR GUIDE POST

- Reflective delineation can be customised to suit any application, and coloured posts are available on request
- Made to the Australian Standard AS/NZS 1906.1 which states only Diamond Grade delineation can be used on guide posts
- Custom size, colours & spacing available
- Can be cut with a 45° angle on base for easier installation

**MATERIAL:** Made of PVC

**SIZE:** 50mm or 90mm diameter & various lengths

**TOP  
SELLER**

## INTERSECTION GUIDE POST

Our Intersection Guide Posts are made to the Australian Standard AS/ NZS 1906.1 which states only Diamond Grade delineation can be used on guide posts. Reflective delineation can be customised to suit any application, and coloured posts are available on request.

**MATERIAL:** PVC

**SIZE DIAMETER:** 50mm or 90mm

**SIZE LENGTHS:** 1500mm, 2000mm or 3000mm

**Do your posts meet the standards?**

## GUIDE POST TAPES

Ready to apply to your guide posts.

**COLOUR:** White, Red, Blue, Yellow

**SIZE:** 200mm or 300mm kiss cut segments on a 45m roll

## MAXSAFE® PVC GUIDE POST

The MAXSafe® PVC Guide Post is perfect for any site where delineation is required on the edge of roads, walkways etc.

### KEY FEATURES

- ✓ Flexible
- ✓ UV stabilised
- ✓ Comes with reflective delineators on both sides

#### MAXSAFE® PVC GUIDE POST

PRODUCT CODE: AMGPPVC1

DIMENSIONS: 100 mm W x 1350 mm H

# Find Out Exactly When to Use Ear Protection

**SoundEar II® Industrial, XL**

**SoundEar®3 – 310, XL**

## MEASURE, MONITOR AND MANAGE THE NOISE

In workplaces, where noise levels depend on location and production processes, it is sometimes difficult to decide whether ear protection is needed or not.

SoundEar II® and SoundEar®3 leaves nothing to chance. It omits a clear and easily understandable warning in those areas where the use of ear protection is required.

- ✓ Reduce risk of hearing impairments
- ✓ Increase focus and reduce stress
- ✓ Easy to follow: wear hearing protection when light is red
- ✓ Monitor noise levels through the included software

### **SoundEar®3 – 310, XL**

- ✓ Measure and monitor noise in multiple locations
- ✓ Receive alarm notifications via e-mail when noise levels are too high

You can monitor noise levels for all your devices simultaneously, through the included SoundEar Software. Each device transmits

noise measurements to your computer directly or via a cloud service. You can choose between 3 types of automatic data transport: Wireless communication, Wi-Fi, or LAN.

PRODUCT CODE	DESCRIPTION	DIMENSION
MAX-NB-SEII	SoundEar II® Industrial	265 L x 205 W x 46 mm H
MAX-NB-SEII-XL	SoundEar II® Industry XL	576 L x 376 W x 46 mm H
MAX-NB-SE3-310	SoundEar®3-310	256 L x 205 W x 45 mm H
MAX-NB-SE3XL	SoundEar®3 XL	595 L x 412 W x 59 mm H

# GENERAL SITE SIGNAGE

## LTI BOARDS

Talk to us about your requirements

- Custom size, wording & colours
- Option of LED light
- Option for solar power
- Internal or external
- Big or small

## DIRECTIONAL SIGNS

Create a safe environment by guiding employees & visitors to destinations. We provide Site Visits to assist in maximising site accessibility.

- Custom size, wording & colours
- Reflective Class 1 or Diamond Grade™
- Australian standard compliant

See Site Visit  
Page 28

# GENERAL SITE SIGNAGE

## Entry Signs

- Custom size, wording & colours
- Reflective Class 1 or Diamond Grade™

Please call to discuss your site requirements

## Concept to Completion

## EMERGENCY SIGNS

Deliver emergency messages in remote job sites. Clearly communicate traffic directions to vehicles responding to incidents and mark emergency assembly areas with large safety signs.

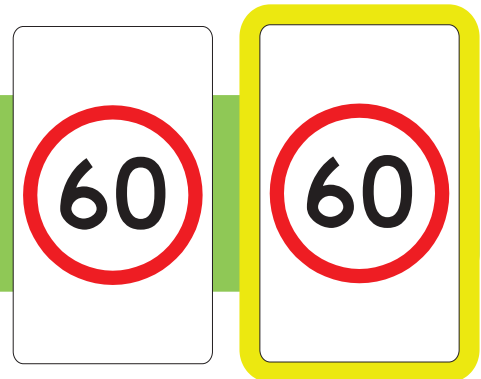

## SPEED SIGNS

- Custom size, wording & colours
- Clearly communicating speeds for safety
- Reflective Class 1 or Diamond Grade™
- LED options available

Give your signs  
**IMPACT!** Add a  
**Hi-Vis border!**

## WARNING & DANGER SIGNS

Warning signs are used to alert workers and visitors in the mine site of hazards that have the potential to inflict harm but not likely to result in loss of life. Danger signs are used to warn about life threatening hazards or conditions.

Does your signage  
meet the standards?

# GENERAL SITE SIGNAGE

## INFORMATION SIGNS

- Custom size, wording & colours
- Reflective Class 1 or Diamond Grade™
- Design, manufacture & installation available

Accumax can help you get your **MESSAGE ACROSS!**

**The rules are as follows in order of priority unless sign posted:**

1. Light vehicles will give way to all heavy vehicles.
2. Heavy vehicles will give way to their left.
3. When only two vehicles of the same hierarchy approach head on at an intersection, never cross the path.
4. Light vehicles will give way to light vehicles on their right.

LIDDELL  
GLENORE

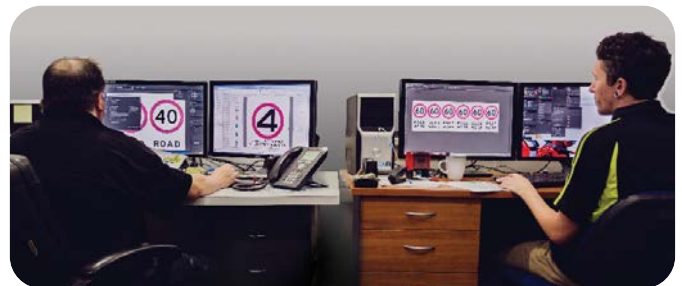

## IN-HOUSE DESIGN CAPABILITY

Signage design requires a special skill set, it is a different way of design thinking. As a general rule, there is approximately 3.5 seconds to communicate a message to its intended consumer, there is not a lot of dwell time as there is with a brochure or a print advert. Signage designers need to take into consideration some very important factors:

- Environmental conditions
- Viewing distance
- Message recognition
- Easy to read fonts
- Easy to read colours
- How best to stand out

Accumax Global has a team of in-house design and marketing professionals to assist you with communicating your message. Let the professionals handle your signage design. Give us a call on 1300 222 862 to start designing your signage project now.

# LOW CLEARANCE

### VEHICLE HIERARCHY UNLESS SIGN POSTED

- 1 EMERGENCY VEHICLES
- 2 HEAVY LEFT HAND DRIVE VEHICLES & ANCILLARY EQUIPMENT
- 3 LIGHT AND OTHER VEHICLES

### The rules are as follows in order of priority:

1. Light vehicles will give way to all heavy vehicles.
2. Heavy vehicles will give way to their left.
3. When only two vehicles of the same hierarchy approach head on at an intersection, never cross the path.
4. Light vehicles will give way to light vehicles on their right.

## STICKERS, DECALS & MAGNETS

Our team of graphic designers can custom design stickers, decals, & magnets for your work site.

Hat stickers, danger stickers, equipment decals, safety decals — you name it, we can do it!

- Reflective & non-reflective
- Any message can be printed onto a sticker, decal, or magnet
- All sizes available

# GENERAL SITE SIGNAGE

## HAUL ROADS

- Roads in constant use day & night, with haul trucks & significantly smaller mine operating vehicles working alongside each other
- Common problems we solve: poor visibility, intersections, fatigue, fog, wet weather, sign durability in harsh working environments
- Our boards offer outstanding impact for all operators, particularly in the fatigue hours
- Using the correct materials increase distance viewing by drivers with wider viewing angles
- Optimise visibility

**Can we assist you in making your site roads safer?**

## TROJAN SIGN SKIDS

### FEATURES

- ✓ Fully galvanised reinforced frame
- ✓ Interchangeable sign faces on multi-message board
- ✓ Removable message frame for use with standard signage
- ✓ Diamond Grade™ delineation on frame
- ✓ Can be customised to suit your needs
- ✓ Transportable

### Custom Sleds Available

- ✓ Solar Flashing LED lights

Call us to discuss your requirements!

**BASE SIZE:** 1100mm x 1800mm x 2000mm (H)

**TOP SIGN SIZE:** 1200mm x 600mm

**BOTTOM SIGN SIZE:** 1200mm x 300mm

**WEIGHT:** 80kg

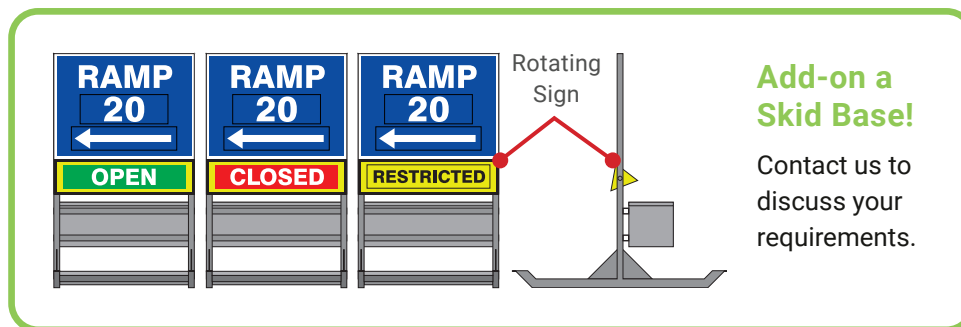

## ROTATING CHANGEABLE SIGNS

Accumax Global have an in-house design team who specialize in providing solutions for the mining sector. The Tumbler sign range can be adapted to suit your site requirements.

- Can be fixed or portable. The ability to attach the tumbler signs to sleds allows for the signs to be moved as required.
- Ability to rotate signs and allow various messages to be displayed is an ideal solution for areas on site that have areas or hazards that can change.
- Road Closed – Open – Restricted

Contact us to discuss your requirements.

## HAZCHEM SIGNS

To ensure your workplace is safe in case of an emergency, it is essential to properly label all hazardous materials. Emergency responders use these signs to identify the risk level and which actions to take. Vehicle mount signs are available.

# DETONATORS

PRODUCT CODE	SIZE	MAT

# EXPLOSIVE

PRODUCT CODE	SIZE	MAT
9104	900 x 200mm	Metal

# EXPLOSIVES

PRODUCT CODE	SIZE	MAT
9105	900 x 200mm	Metal

# VEHICLES

## CUSTOMISED TAPES

Custom print reflective tapes

- Colour code vehicle fleet
- Add corporate colours and logos
- Different sizes available

## VEHICLE STRIPING & IDENTIFICATION

- Striping for doors, front & rear guards & rear door
- ID numbers for doors & rear

## TRUCK STRIPING & IDENTIFICATION

- Striping for doors, front & rear guards & rear door
- ID numbers for doors & rear

### Day & Night VISIBILITY

Increased equipment visibility is essential for night time operation to improve safety and reduce accidents that leads to downtime and loss of productivity.

# MAINTENANCE

## CUSTOM PRINTED WHITEBOARD

Custom Printed Whiteboards makes it faster for assigned staff to organise and disseminate routine information. Monitoring and comparing site situations, equipment maintenance or team performance are simplified in office and field conditions.

**STANDARD SIZES:** 900mm x 600mm, 1200mm x 900mm, 1800mm x 1200mm

\*Custom board sizes also available

## ENGRAVING

Accumax Global offers an extensive range of engraved products. Specialising in products for the mining & industrial sectors, we can supply your site whatever you require.

No matter what material you need:

- Stainless Steel
- Aluminum
- Brass
- Traffolyte
- Industrial Engraving
- Door Signs
- Name Plates & Badges
- Directory Boards

Please call our team to discuss your requirements.

## MACHINE DECALS

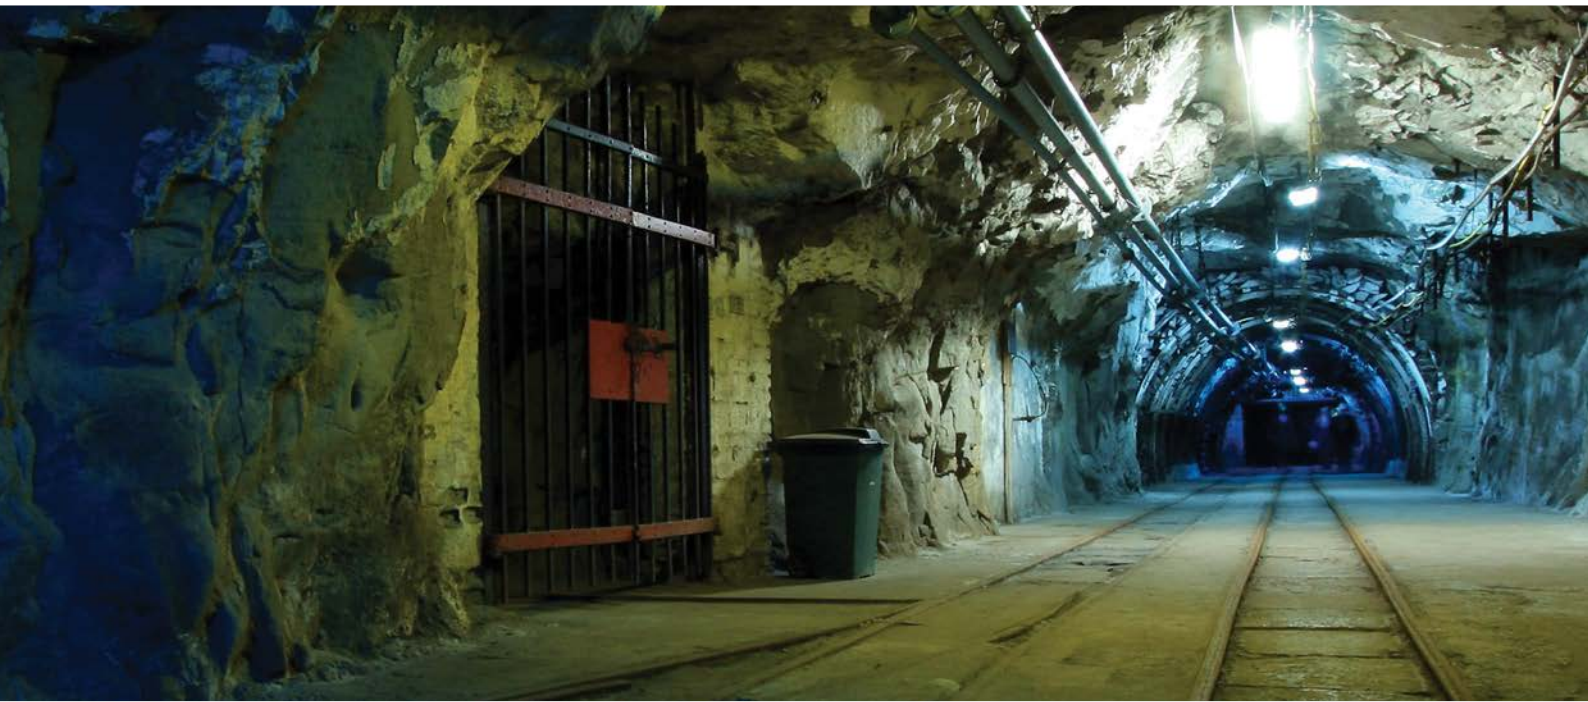

Machine decals have become an important aspect in promoting safety when operating and maintaining heavy equipment. Accumax Global offer extensive range of stickers & decals to cover the different operating environment and needs of your equipment.

- Indoor or outdoor
- High or low temperature
- Chemical resistance
- Surface texture

Give us a call to discuss the labels needed by your machinery.

# UNDERGROUND SIGNS

## MINE STREAMERS

Long distance visibility is an essential safety aspect of underground mines. Our Mine Streamers provide a cost-effective way of delineating roadways. It's reflective, flexible and highly visible. It can have eyelets, press studs or can be weighted for ease of installation.

**SIZE:** 50mm (W) x custom lengths

**COLOURS:** White, Blue, Yellow, Red, Green

## Custom Mine Streamers

Custom Mine Streamers are available for any colour or wording required.

Custom Mine Streamers

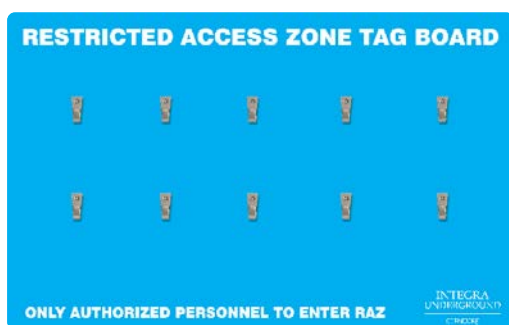

## PYRAMID™ SLEEVE

Enhance visibility and add an additional message to your pyramid with our Pyramid™ Sleeve. It comes complete with threaded plastic rod for easy attachment.

Manning Board

## MANNING BOARDS

Accumax Global provides custom made Manning Boards following your specifications to correspond with your manning and safety protocols.

- Engraved tags available
- Removable hooks
- No aluminum parts

Eight colours available

## CUSTOM HANG TAGS

Our Custom Hang Tags are reflective & flexible especially created to suit your manning boards or other boards with similar design. Custom printing on tags are available. Give us a call to discuss how you plan to use the tags. We'll craft solutions to suit your needs.

**COLOURS:** White, Yellow, Lime Green, Orange, Red, Green, Blue, Pink

**SIZE:** 105mm x 48mm or 220mm x 60mm

Custom tags on Reflective Galvabond

Add custom **WORDING**

# UNDERGROUND SIGNS

## 2ND EGRESS SIGNS

Custom made sizes & wording are available. Give us a call to discuss your requirements. We are happy to find a solution for you.

**MATERIAL:** Class 1 reflective on substrate

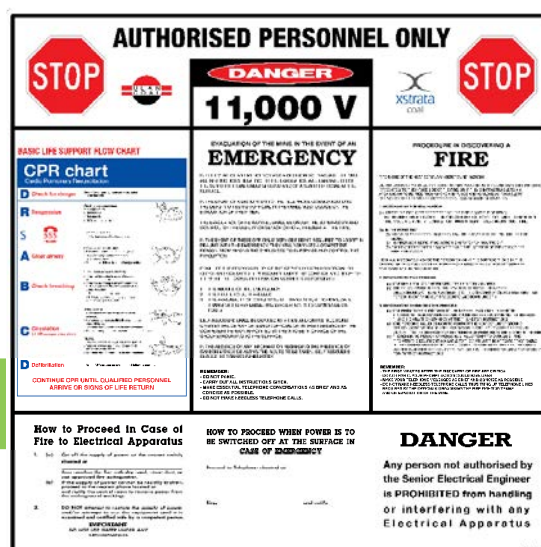

**SIZES:** 450mm x 300mm,  
300mm x 300mm

## EMERGENCY INFORMATION BOARD

Accumax Global's Emergency Information Boards are manufactured using Class 1 reflective on substrate to conform with underground regulations.

Made for underground **REGULATIONS**

## STATUTORY INSPECTION BOARD

All Signs are manufactured using Class 1 reflective on substrate to conform with underground regulations.

**CUSTOM REQUIREMENTS!**

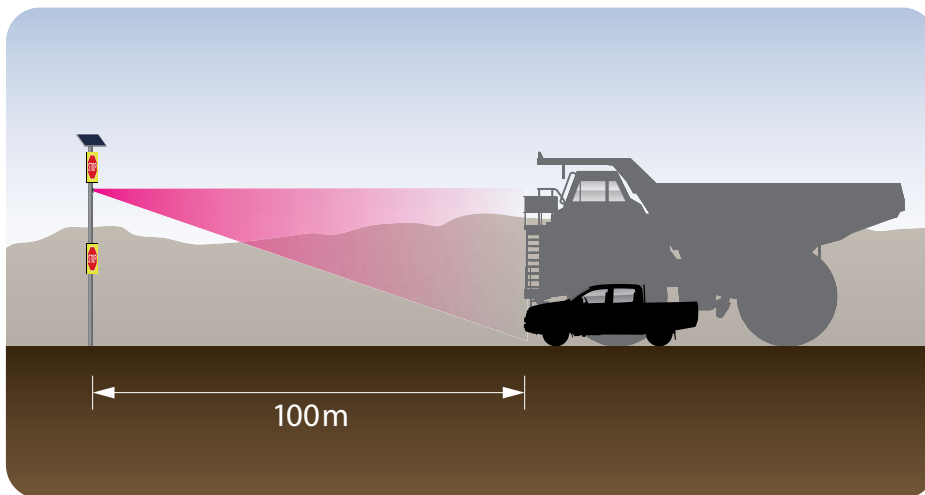

# SUPABRITE™ TRAFFIC CALMING

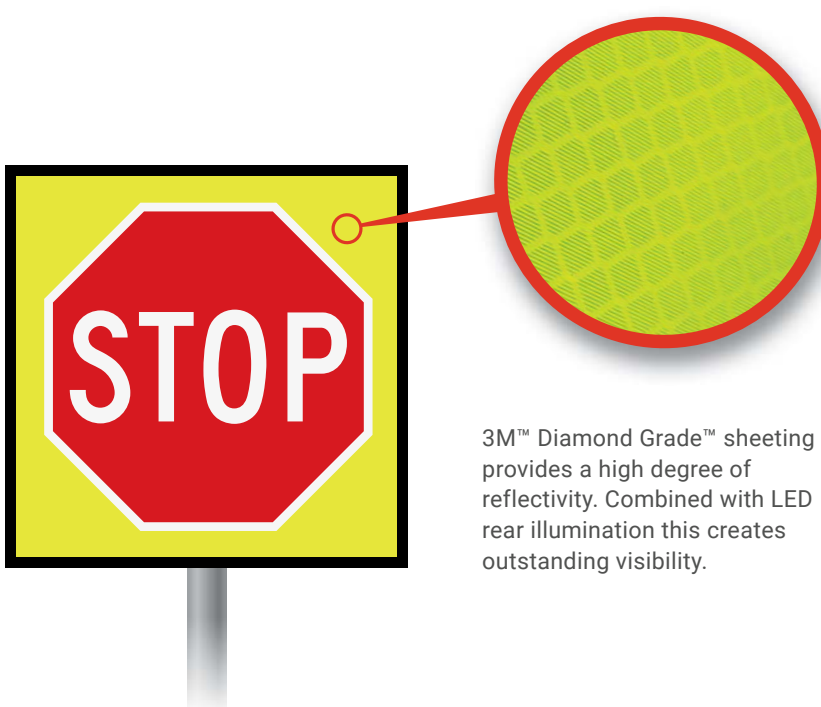

## SUPABRITE™ TRAFFIC CALMING

Supabrite™ is a revolutionary design incorporating both the wide angle reflectivity of DG3™ sheeting and LED rear illumination. Add vehicle activation via radar for a highly effective system to warn drivers of intersections or traffic hazards.

Once the radar detects a vehicle, the sign will flash or stay on for a period of time according to the user's desired settings. This provides drivers with the best opportunity to respond accordingly to the sign message – a substantial advantage for site safety.

Low power sign activation via radar at an intersection

3M™ Diamond Grade™ sheeting provides a high degree of reflectivity. Combined with LED rear illumination this creates outstanding visibility.

## FEATURES

- ✓ Wide angle reflectivity - same standard as top-level signage and vehicle striping
- ✓ LED illuminated (min. 100,000 hrs)
- ✓ Powered with 12/24V DC
- ✓ Solar panel option for remote locations
- ✓ Vehicle activation option with radar
- ✓ Patented multi-layered technology\*

\* IP Number 2014900106

**Optional Radar  
Activated flashing**

Multiple signs can be mounted on the same post to target both drivers of light vehicles (e.g. 4WDs) and also larger heavy vehicles (e.g. haul trucks). Both signs on the same post would operate from a single radar and solar panel system.

This system can operate on the 3G/4G LTE network and has a graphical web based dashboard to advise of statistics such as:

- ✓ GPS location
- ✓ Vehicle count
- ✓ Time and date
- ✓ Live battery usage
- ✓ Approaching vehicle speed
- ✓ Humidity, temperature and barometric pressure measurement
- ✓ Solar Charging Rate as a percentage of 100%

We can customise our IP system to operate on a dedicated network frequency to suit your industrial application.

## SITE VISITS

# Site Visits!

### Optimise Site Safety

Accumax Global personnel will visit your site, take images of problem areas such as haul roads, intersections, vehicles, washeries, high traffic areas such as car parks and pedestrian areas. Key recommendations and full transparent pricing will then be documented complete with before and after image. This allows for more effective decision making within your organisation and identify problem areas and deliver solutions to your team.

Speak to your current Accumax Global representative or contact Accumax Global on 1300 222 862 to organise a time.

We reserve the right to change the product specification without notice.
