CUSTOM SIGNAGE

BANNER MESH

Accumax Global recommends Mesh Banners to address your large outdoor banner requirements. The mesh design allows light and wind to pass resulting to:

- ✓ Reduced shadow
- ✓ Less chances of ripping in high wind conditions

Mesh Banners are especially suited for tall buildings, fences and as scaffold wraps.

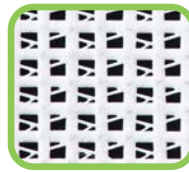

Eyelet

Wheels (for 1200 x 900)

*Dimensions are in mm

Cutom Signs to Suit Metal A-Frame

A-Frame allows the messages to be seen from both sides. Suited on walkways or open spaces where workers and pedestrians come from different directions.

Accumax Global can provide Custom Signs to suit your Double Sided Metal A-Frame Signs!

CUSTOM PIPE MARKERS

CUSTOM PIPE MARKERS

With the many and varied projects that are happening today, the need for customised pipe marker labels to ensure correct pipe identification is imperative. Accumax Pipe Marker labels are manufactured from a durable, high-tac vinyl material using UV stable inks and are suitable for both indoor and outdoor use. Simply peel the pipe marker label from the backing sheet and place in position on the pipe.

Our experienced team will assist you, from initial design (for custom pipe marker labels), through to proofs for your approval. We will then priority despatch them to you to avoid costly delays on big projects.

Any size, any text, any colour!
