FIRE EQUIPMENT AND ACCESSORIES

EXTINGUISHER CABINETS

Galvanised Metal Cabinet

Fitted with 003 lock and a key in the break glass panel. High quality powder coated finish.

PRODUCT CODE	DESCRIPTION	DIMENSION
FE-MC45	Fits 4.5kg DCP extinguisher	590mm H, 280mm W, 210mm D
FE-MC90	Fits 9kg DCP extinguisher	760mm H, 280mm W, 230mm D

Plastic Cabinet

Our Heavy-Duty Cabinets come with latches for easy access.

PRODUCT CODE	DESCRIPTION	DIMENSION
FE-PC45	Fits 4.5kg DCP extinguisher	700mm H, 290mm W, 255mm D
FE-PC90	Fits 9kg DCP extinguisher	825mm H, 317mm W, 265mm D

VEHICLE BRACKETS

PRODUCT CODE	DESCRIPTION
FE-HDBR45	Heavy duty vehicle bracket to suit 4.5kg extinguisher
FE-HDBR90	Heavy duty vehicle bracket to suit 9kg extinguisher
FE-OCBR45	Over centre vehicle bracket to suit 4.5kg extinguisher
FE-OCBR90	Over centre vehicle bracket to suit 9kg extinguisher

FIRE BLANKETS

Fire blankets are effective in cases of minor fires. Complies to AS/NZS 3504.

MATERIAL: Woven fibreglass with plastic cover

PRODUCT CODE	SIZE
FB10	1000mm x 1000mm
FB12	1200mm x 1200mm
FB18	1800mm x 1200mm
FB1818	1800mm x 1800mm

FB1818

FIRE EXTINGUISHER BACKING BOARDS

MATERIAL: Aluminium Class 1 reflective

PRODUCT CODE	DIMENSION
790C1	900mm x 600mm
791C1	1200mm x 900mm
792C1	1500mm x 1200mm

FIRE EXTINGUISHERS

Our Fire Extinguishers can be used to protect your office, shop, vehicle, industrial workplace or storage facility. View our Fire Extinguisher Selection Chart to ensure you buy the extinguisher most suited to your application.

SDH409

.

PRODUCT CODE	DESCRIPTION
SDSB	A4 Binder – Red/White
SDSY	A4 Binder - Black/Yellow
SDH409	Outdoor SDS holder A4; holds 1 x SDS Binder

SDS Binders are often used with the SDS Wall Mount Stations placed near doorways.

OUTDOOR SDS SHEET HOLDERS

SDH410	SDH41

PRODUCT CODE	DESCRIPTION	HOLDS
SDH407	Outdoor Flip Top SDS holder	A4 sheets
SDH408	Outdoor Front Opening SDS holder	A4 sheets
SDH410	Outdoor Front Opening SDS holder	A5 sheets
SDH411	Outdoor Tube SDS holder	A4 sheets

SDS SIGN

SDS Signs indicate where Safety Data Sheets, documents providing information on the properties of hazardous chemicals and their effect on health and safety, are located within the workplace.

Clearly indicating where SDS binders and sheets are kept for easy usage is an integral part of ensuring your workplace complies with Safe Work Australia Standards.

SITE SAFETY

UNDERGROUND TAPES

Our Underground Tapes create a warning for digging crews and excavators of buried services below ground. Manufactured in accordance with Australian standards, our underground tapes are resistant to high pH soils, discolouration, and rot. Highly visible and with the ability to stretch,

these underground tapes have been designed to withstand long periods underground. We supply Non-Detectable tapes and Detectable tapes that contain a stainless steel wire running the length of the roll to make locating it easy when using a metal detector.

MAXSafe® Scaffold Tag -Extended/ Duplicate

PRODUCT CODE	PACK QTY
MAX-STEX1	50
MAX-STEX2	500
MAX-STEX3	1000

1 pc Permanent DESCRIPTION: Marker Pen

DESCRIPTION: Cable Ties - PK/100

The MAXSafe® Scaffold Tag eliminates the limitations of the traditional scaffold tag, by not having to be hung on the scaffold tube. This means that the MAXSafe® Scaffold Tag does not need to be cut or modified to fix in the best place in every situation.

MAXSafe® Scaffold Inspection Tags don't need to be removed or altered throughout the scaffolding process and also has the outstanding feature of being able to extend the certification stage by simply adding an insert tag. Up to 10 inserts can be added per tag.

MAXSafe® Scaffold Tags are the best single package solution in almost every situation for ensuring safety for all users of the scaffold. Designed for use on all work sites, always providing the highest level of safety and compliance.

FEATURES

- ✓ Ultra tough poly construction, virtually untearable
- Scaffolder friendly
- Meets and exceeds AS standards
- ✓ Extremely versatile not limited to where, or how to hang it
- ✓ Cost effective and re-usable
- ✓ Total message on one page
- Clear to all persons who access scaffold - not just scaffolders
- High wind resistance
- Impervious to dust, dirt and grime

Ouick Release Tabs

With our unique 'Quick Release Tab' system, the tag can be easily swapped between phases, and is very effective at holding in place.

Industry Problem Rectified: Means no insert tag is left flapping.

Dedicated Lockout Point

The only Scaffold Inspection Tag in the industry to come with a dedicated, built-in Lockout Point on the 'Do Not Use' stage. Lockout Padlocks or Cable Ties can be used to secure on the 'Do Not Use' stage.

Industry Problem Rectified: Means no one else can swap the tag to Certification when scaffold is not ready.

Check Special Notes 'Tick Box'

With a clearly identifiable box for marking if there are Special Notes, the need for checking before accessing is made clear for all trades.

Industry Problem Rectified: No need to spend time checking all sides of tag for Special Notes if box is not ticked.

Dedicated 'Special Notes' Section

A dedicated 'Special Notes' section is located on reverse side of certification stage of tag. A simple and efficient way to allow all users to check instantly.

Industry Problem Rectified: Plenty of room to write specific and detailed Special Notes.

Certification Extended Section

A dedicated section in centre of tag for Extra Certification tags, has 4 holding tabs to ensure they cannot blow out. Users of the scaffold are notified of this by a tick box on the front tab.

Industry Problem Rectified: Extend tag life on job site indefinitely by using inexpensive Extra Certification tag.

Handover Certificate 'Tick Box'

It can be clearly marked on Certification Tab if handover certificate is in use or not.

Industry Problem Rectified: Eliminates confusion as to whether a handover certificate has been used or not.

Universal Cable Tie Holes

The tag has dedicated cable tie points at top and bottom for quick mounting on scaffold tube. It enables the user to position tag exactly where needed.

Industry Problem Rectified: Does not have to be hung on a horizontal tube like the traditional tags do.

SAFETY STATIONS

MAX-STR-SC

MAX-STR-FR

SAFETY STATIONS

The full scope of an accident isn't always clear straight away. Having a complete kit in a mobile Safety Station allows you to react quickly and address a wide range of potential incidents. The Trolleys are made from powder coated steel with solid heavy duty wheels. The Cabinets feature hinged doors and lockable latches.

The contents of our Safety Stations have been specifically selected to ensure you have everything you need in order to respond to emergencies quickly and efficiently. The contents can be easily reordered using the reorder codes on the front and back of each Station.

Replacement Trolleys and Cabinets are available. We can also create customised stations to meet specific requirements. Talk to us today to find out more!

DIMENSIONS

TROLLEY: 1500mm H x 650mm W

CABINET: 735mm H x 616mm W x 270mm D

PRODUCT CODE	DESCRIPTION
MAX-STR-GF	First Aid Station
MAX-STR-SC	Site Safety Station
MAX-STR-FR	Fire Extinguisher Station

First Aid Station

- 1 x Snake & Spider Bite Kit (LLSSB)
- 1 x Dual Personal Eyewash: 1 x 500ml pH & 1 x 1000ml Saline (AM-H7541)
- 1 x Haemorrhage First Aid Kit (AMFAWT3UMHM)
- 1 x Minor Wound First Aid Kit (AM-FAWT3UMMWM)
- 1 x Burns First Aid Kit (AM-FAWT3UMBM)
- 1 x Extra Stock First Aid Kit (AM-FAWT3UMAM)

Site Safety Station

- 1 x 15 Person Workplace Response First Aid Kit (LLF3B)
- 1 x 'Caution' Barrier tape, 75mm x 300m Roll (BTYC)
- 1 x 40 Litre General Purpose Spill Kit (MAX-40GP)
- 1 x Disposable Air Horn (MAH09)
- 1 x A5 SDS Holder (SDH410)
- 1 x 1000ml Saline Eyewash (AM-H7584)

Fire Extinguisher Station

- 1 x 9kg ABE Powder Fire Extinguisher (FE-0090)
- 1 x 2kg CO2 Fire Extinguisher (FE-002C02)

VINYL HOLDER

PERMIT AND DOCUMENT HOLDERS

Improve safety and security by making documents available onsite. Our Vinyl Holders will allow you to store copies of your certificates where they are needed. Made from vinyl with a clear front, it protects documents from the elements while allowing easy inspection and retrieval. Any worker can quickly validate if an equipment or production area is safe for operation. Our Vinyl Holders come in velcro closure or zip on 1 side.

ELECTRICAL AND ASBESTOS SAFETY

RUBBER CABLE COVER

- ✓ Non Conductive & Economical Cable Protector
- ✓ Suitable for pedestrian and light vehicle traffic
- ✓ 3 good size channels for a variety of cord sizes
- ✓ Hinged Lid for ease of use
- ✓ Safety Yellow Lid with Anti-Slip Surface
- ✓ Suitable for indoor & outdoor use
- Male/Female interconnect system means you can form your needed length quickly and easily
- ✓ 3x Channels at 60mm W x 50mm H

PRODUCT CODE	DESCRIPTION
SRCC3	Channels suit up to 3 cables
SRCCEC	End caps to suit - pair

HEAVY DUTY, LOAD RATED PU CABLE COVER - 3 CHANNEL

Our Heavy Duty Cable Cover - 3 Channel is made from polyurethane for extended durability, ensuring protection of electrical cables against harsh work environment. It features a hinged lid for easy placement and removal of cables.

- ✓ Male/female connections for any length you require
- ✓ UV stable for outdoor use
- ✓ Hi-viz orange and yellow
- Anti-slip surface on top and sides
- Rated to 4.5 T per tyre
- ✓ Suit up to 3 Cables
- ✓ 3 x Channels each 58mm H x 65mm W

HEAVY DUTY, LOAD RATED PU CABLE COVER - 3 CHANNEL		
WEIGHT	13 kg	
DIMENSIONS	900mm L x 550mm W x 75mm H	
PRODUCT CODE:	MAX-HDCC3	

DROPOVER RUBBER CABLE COVER

To use Dropover Rubber Cable Cover, simply dropover on top of cables. The Male/female connections makes it easy to form any length required. Best suited for pedestrian applications.

- ✓ Hi-vis Yellow Cable Protector
- ✓ Made from rubber for flexibility
- ✓ UV stable for outdoor use
- Anti-slip surface on top and sides
- Channel Size 40mm W x 10mm H

LEAD STANDS & LEAD HOOKS

Electrical cables on the ground can be a source of danger to on-site workers. That is why we offer a variety of Lead Stands & Lead Hooks to assist with the elevation of all types of power leads.

Our Lead Stands and Lead Hooks are non-conductive, non-corrosive and highly visible. All are proven to withstand the harsh Australian conditions.

MAXSafe™ Poly Base Lead Stand

Complete with 1.2m - 2.4m high non conductive fibreglass pole and plastic lead holder.

MAXSafe™ Metal Base Lead Stand

Complete with 1.2m - 2.4m high metal pole and plastic lead holder.

Lead Hook - Standard

Standard electrical lead hook, non-conductive and non-corrosive.

Lead Hook - Heavy Duty

Heavy duty lead hook SWL tested to 50kg. Non-conductive and non-corrosive.

MAXSAFE™ ANTI-SLIP

MAXSafe

MAXSafe™ Anti-slip is a premium range of anti-slip products that are designed and manufactured in Australia, for tough Australian conditions.

Reduce and eliminate slip risks in your workplace with our quality anti-slip products for stairs, ladders, conveyor channels and other potential hazards.

Highly effective in both wet and dry conditions, these Anti-slip products have been developed and tested to meet or exceed the most demanding requirements in industrial and commercial environments.

MAXSAFE™ ANTI-SLIP STAIR NOSING

Anti-Slip Stairnosing can easily be fitted over existing surfaces to overcome wet or oily steps.

- Suitable for all stair surfaces metal, concrete, wood, masonry etc.
- · Chemical, UV and impact resistant.
- Bright safety yellow makes all stairs highly visible.
- · AS/NZS Certified.
