# Concrete Route Markers

Electrical and Telecommunications Route Markers are essential in the management and maintenance of infrastructure, specifically electrical and telecommunications. Follow safety protocols and mitigate risk with the markers placed above or near underground utility lines to provide critical information to workers, excavators, and other stakeholders.

## 4 EASY STEPS TO SELECTING YOUR CUSTOMISED MARKER

With a wide range of customisable options available, Accumax can work with you to tailor the blocks to your site's individual needs. There are four sizes from 22-64kg plus a range of service and directional arrow, wording and finishing options.

1

Standard Sizes Available	Weight
<b>A</b> 300mm (L) x 300mm (W) x 300mm (D)	64kg
