Unfortunately, some workplaces cannot simply cool the environment surrounding the workers because of the nature of the work or the fact the work takes place outside in the Australian heat.

We need a way to keep the core temperature of the workers down BEFORE heat-related health issues arise, such as heat stroke or dehydration. CoolWorker® offers a full range of solutions to help keep the body cool and comfortable.

# Sword Performance. The New Drinkable PPE.

## Backed by Science

Developed by Doctors and grounded in medical research. Sword Performance products were made in the kitchen, tested in the clinic, and proven in (and on) the field.

## Rooted in Nature

Natural flavours, natural carbohydrates. If you can't find it in nature, you won't find it in our bottles.

## Clean and Clear

No dyes, no fillers. If an ingredient doesn't work with the body to hydrate you better and faster, we don't use it.

## Built to Perform

Hydration built to do a job: fight heat stress and fatigue. When your hydration is built with purpose, that's one less thing to worry about.

A Healthy  
and Effective  
Solution to  
Heat Stress  
Prevention

## What Ingredients are in Your Drink?

On average, it takes your body 3 minutes to digest a single ingredient. The less ingredients, the quicker your body absorbs and becomes hydrated.

### SHIELD

6

ingredients

Water  
Cane Sugar  
Citric Acid  
Sodium Chloride  
Natural Flavors  
Potassium Citrate

### SWORD

7

# Solar Powered Hydration Solutions

## Hydration Trailer

### PRODUCT FEATURES

- » Solar powered (6 x 400W panels)
- » Stainless 900mm benchtop
- » Bottle rack to accommodate 4 x 20 ltr bottles
- » Single door fridge/freezer 220ltr
- » High-vis mine site compliant striping
- » Air conditioning
- » Tinted windows with roller blinds
- » Personal access door
- » Rear access with platform and handrails and fold out steps

The Australian climate is a harsh environment and can make for challenging work conditions if personnel cannot maintain proper hydration and cooling.

We have designed and developed the first solar powered hydration trailer, essential for promoting the health, safety and well-being of individuals working in hot conditions. The trailer is designed to be placed in operational areas to provide suitable respite during periods of high temperatures close to the worksite.

## Mobile Hydration Station

The Solar Powered Mobile Hydration Station by CoolWorker offers a superior solution for hydrating workers operating under the extreme Australian sun. It comes with a 40ltr fridge/freezer ensuring a constant supply of chilled refreshments for your personnel in remote job locations. The small footprint allows easy transport between sites.

The Hydration Station comes with a 12v 200 amp hour battery. It is charged by a solar panel mounted on top, backed by a Victron charger and MPPT.

### SHIELD ICY POLE

Shield Icy Pole Your Hydration Station can accommodate 6 x CW-WB5L CoolWorker 5L Cooler Jugs and 5 x CW-FPSHMIX (Each a pack of 36) Shield Icy Poles. (not included in the package).

CW-FPSHMIX

CW-WB5L

# Backpacks and Drink Coolers

## 2L High-Visibility Hydration Backpack

The CoolWorker® 2L High-Visibility Hydration Backpack with reflective Day/Night tape is supplied with a 2L hydration reservoir. The slim-line twin-compartment design provides enough room for your phone, keys, and smaller accessories yet remains small enough not to be bulky when in use.

### FEATURES

- » Includes a premium 2L TPU hydration reservoir
- » Twin compartment slimline design
- » Reflective Day/Night tape increases visibility and safety
- » Dual shoulder duct hydration tube ports
- » Action Back Extreme padded harness system
- » Vented mesh shoulder straps improve airflow
- » Sternum strap for increased pack stability
- » Front zip pocket with phone pouch

Product Code	Dimension	Colour
CW-2LHBPO	380mm H x 200mm W x 60mm D	Orange
CW-2LHBPY	380mm H x 200mm W x 60mm D	Yellow

## CoolWorker® 2L Hydration Backpack

High-intensity jobs in remote job sites require focus. That is hard to do if you have to constantly stop to grab a bottle just to keep yourself hydrated. The CoolWorker® 2L Hydration Backpack will help ensure you're electrolytes are replaced without leaving your post.

# Eskys and Drink Coolers

Keep your hydration drinks refreshingly cool with our insulated drink coolers. Each comes with a carrying handle for convenient loading and unloading on vehicles and placement on platforms. The wheeled coolers are available for worksite mobility that's easy on the back.

CoolWorker® drink coolers are available in various sizes to match the number and needs of your workers.

**CoolWorker® Cold Pack**

CoolWorker® Cold Pack CW-IB01 is an ideal substitute for ice cubes to cool your hydration fluids and other bottled drinks.

Fill the Cold Pack with water and store it in the freezer overnight. Place in a cooler or ice box and it is ready for use on your next job site.

# Mobile Cooling Vest System

## CoolWorker® Coolflow Wheeled Chiller and Reticulated Adjustable Vests, 60L

### INCLUDES

- » 60L Esky Chiller
- » 6 x Adjustable Reticulated Vest
- » 6 x 4 mtr Feed & Return Hose
- » 1 x Lithium Battery & charger
- » 1 x Wall Plug Power Cord
- » Instructions & Operating Manual

The Coolflow Chiller and Reticulated Adjustable Vest 60L comes with 4 mtr Feed & Return Hose and can cool up to 6 persons. When the temperature has risen beyond the desired level, simply refill with ice for extended use.

PRODUCT CODE: CW-CF6006

## CoolWorker® Coolflow Chiller and Reticulated Adjustable Vest, 45L

### INCLUDES

- » 45L Esky Chiller
- » 1 x Adjustable Reticulated Vest
- » 1 x 4 mtr Feed & Return Hose
- » 1 x Lithium Battery & charger
- » 1 x Wall Plug Power Cord
- » Instructions & Operating Manual

The Coolflow Chiller and Reticulated Adjustable Vest 45L comes with 4 mtr Feed & Return Hose and can easily cool 1 person. When the temperature has risen beyond the desired level, simply refill with ice for extended use.

PRODUCT CODE: CW-CF4501

## Mobile Cooling Unit for Surgery and Healthcare Use

The One Person Esky Chiller with Stand and Trolley allows for surgical and medical care to be undertaken in the most humid and hottest Australian environments.

### The Active Ice Range

CoolWorker also has an Active Ice range of products to suit indoor applications like operating theatres, Food & Beverage Manufacturing etc. The Active Ice includes Cold Therapy products for pain management, and rehabilitation.

# COOLEX EZY

## COOLEX EZY COOLING ADVANTAGE

The COOLEX EZY Vest and Seat Cover contain 8 removable freezable pouches, that will keep the user cool for a condensed length of time.

Ideal for temporary situations, the versatile vests can be used in many applications. The vests and seat cover are machine washable with adjustable straps for better comfort and fit.

COOLEX EZY Vest and 8 Gel Pouches

COOLEX EZY Seat Cover with 8 Gel Pouches

Product Code	Description
CW-CEZ-L	COOLEX EZY Vest - c/w 8 x Reusable Pouches - Size Large (L-XL)
CW-CEZ-XL	COOLEX EZY Vest - c/w 8 x Reusable Pouches - Size X Large (2XL-3XL)
CW-CEZ-XXL	COOLEX EZY Vest - c/w 8 x Reusable Pouches - Size XX Large (4XL-5XL)
CW-CEZ-SC	COOLEX EZY Seat Cover - c/w 8 x Reusable Pouches
CW-CEZ-P-8	8 x Reusable PCM Pouches to suit the COOLEX EZY Vest and Seat Cover

# CoolWorker High-Vis Cooling Vest

The first effective high-vis cooling vest in Australia.

Accumax has worked with manufacturers to design and provide the Australian market with a cooling vest that is high-vis and lightweight, effective in harsh Australian climates.

We have listened to our customers' needs and worked to provide them with a product to suit their requirements.

High-Vis Cooling Vest and 8 Gel Pouches

## PRODUCT FEATURES

- » The CoolWorker vest contains 8 removable freezable gel pouches, that will keep the user cool for an extensive length of time
- » The vest has been mine site tested and provides up to 3 hours of effective cooling
- » The versatile vest can be used in many applications, such as hot works, emergency services, first aid response, confined space and open pit work
- » Machine washable
- » 100% polyester, with open mesh. It is durable and light weight; it can be worn over existing clothing without feeling like an extra layer
- » 5cm reflective strips on both front and back and high-vis yellow, safe for day/night use
- » Adjustable straps for a firm fit, this provides effective cooling

# Fans and Coolers

## Wall Mount Fans

These wall fans move large volumes of air, ensuring good circulation and a cool environment. The Industrial Wall Fan is suited to industrial applications of air circulation and cooling in large factories and warehouses.

The fan possesses a vertical tilt adjustment and adjustable 90° oscillation to ensure good coverage. Powered through an energy efficient motor with 3 different fan speed settings to choose from, with an added pull cord ensuring greater safety in the workplace.

The Industrial Wall Fan ensures that an area of up to 110sqm is covered. The quick release clips make for easy cleaning and maintenance. They are economical, low powered fan that is cheap to run and ultimately good for the environment.

CW-WM600

CW-WM850

Product Code	Diameter	Airflow	dBa	Weight	Plug Connection	Current (A)	Fan Speed	Motor
CW-WM600	600mm	3250 L/s	<62	15 kg	3 Pin 10amp	0.71	3	0.17 K/W
CW-WM850	850mm	6500 L/s	<88	19 kg	3 Pin 10amp		3	0.35 K/W

## Pedestal Fans

These CoolWorker® Pedestal Fans move large volumes of air, ensuring good circulation and a cool environment. The fan has a vertical tilt adjustment and adjustable 90° oscillation, covering an area of up to 110sqm.

Product Code	Diameter	dBa	Weight	Fan Speed	Motor
CW-PF600	600mm	<62	18 kg	3	0.17 K/W
CW-PF850	850mm	<88	30 kg	3	0.35 K/W

## Portable Floor Fans

CoolWorker portable floor fans are excellent for circulating air and cooling in a wide variety of applications such as offices, lunchrooms, cafeterias, warehouses, factories, etc.

The Portable Floor Fan comes with a 3 speed motor and the ability to be vertically adjustable. The fan's design and construction ensures that the fan circulates air both quietly and efficiently.

Product Code	Diameter	Airflow	Weight	dBa	Voltage	Motor
CW-FF400	400mm	1400 L/s	8kg	<69	240	0.11 K/W
CW-FF500	500mm	1600 L/s	10kg	<70	240	0.15 K/W

## Mobile Mancoolers

Mobile Mancoolers circulates air in a factory environment or can be used to remove smoke, fumes or dust from a workplace. Ducting can be fitted for confined space usage. It come standard with IP55 rated motors.

Product Code	Description*	Dia	Motor
CW-MC01	Mobile Mancooler 240V 4P	600mm	0.75 KW
CW-MC02	Mobile Mancooler 415V 4P	600mm	0.75 KW

CW-MC23	Mobile Mancooler 415V EXE	1000mm	5.5 KW

\*EXE = Intrinsically Safe; Ventilation ducting available to suit.

## Portable Ventilator with 5m of Ducting

The Coolworker Portable Ventilator with 5m length of ducting comes in a 300mm diameter, and will exhaust or supply at a rate of up to 1083 L/S. It has a carry handle for ease of portability and is the most affordable portable ventilation system out in the market.

It is robust and can handle the harsh Australian conditions. The 5m ducting can concertina for ease of storage.

Product Code	Fan Speed	Airflow	Motor	Weight
CW-PV5M	1	1083 L/s	0.52 KW	11 kg

## Coolworker® Misting Fans

The CoolWorker® Misting Fan cools an area via a fine mist sprayed over its operational zone.

### Misting Fan Heavy Duty

The Coolworker heavy duty Industrial Mobile Misting Fan uses a drum style axial fan which allows the mist to be distributed at a further distance up to 12 metres giving you better coverage. It uses a powerful 800w motor with functions such as an adjustable mist control switch, 90° oscillation and uses a 90L tank that can run up to 9 hours.

This Coolworker heavy duty Industrial Mobile Misting Fan is ideal for dust & waste control, construction sites, farms, large open warehouses and outdoor events.

CW-MFHD

### Industrial Misting Fans

The Industrial Misting Fan allows the user to adjust the mist volume, with an option to be used as a normal fan. It comes with 3-speed motor and 90° oscillation, ensuring the fan has a large square metre influence.

Industrial Misting Fans is available in pedestal and wall mount version.

CW-WMMF651

CW-PMF650

Product Code	Description	Diameter	Airflow (L/s)	Tank Size
CW-MFHD	Misting Fan Heavy Duty	600mm	2666	90 L

CW-WMMF651	Misting Fan Wall Mount, 3 Speed	650mm	3600	30 L

# Portable Evaporative Coolers

Portable Evaporative Air Cooler utilises the natural process of evaporation to cool the air. Evaporative Cooling is a cost-effective way of cooling warehouses, workshops, offices and hospitality venues.

Portable Evaporative Air Cooler uses a low wattage water pump to circulate water from the water tank on to cooling pads. The fan draws air from outside the unit through the damped pads. As the air passes through the pads, it is cooled by evaporation.

## FEATURES

- ✓ Portable on wheels
- ✓ Low power consumption
- ✓ Remote control
- ✓ Variable speeds
- ✓ Ideal in open areas
- ✓ Suitable for spot cooling

CW-EVAP04

## Portable Evaporative Air Cooler, Multi Direction

It is ideal for open areas and is capable of cooling areas of up to 150m<sup>2</sup> but is also suitable for spot cooling.

- » Multi direction air outlet
- » Low power consumption
- » Variable speed
- » 4 air inlet sections
- » Remote control
- » Can be connected to a regular garden hose for continuous water supply
- » Float valve sensor

**DIMENSIONS:** 1080mm x 1080mm x 1800mm

## Portable Evaporative Air Cooler, 280W

- » 3 air inlets
- » Axial air outlet
- » 3 cooling pads
- » Automatic swing louvres
- » Can connect to garden hose for continuous water supply

**DIMENSIONS:** 840mm x 480mm x 1390mm

CW-EVAP02

## Portable Evaporative Air Cooler, Single Direction

- » Single direction air outlet
- » Automatic swing louvres
- » 4 air inlet sections
- » Can be connected to a regular garden hose for continuous water supply

**DIMENSIONS:** 1080mm x 1080mm x 2025mm

CW-EVAP03

Product Code	Description	Motor	Cooling Area	Tank Size	Consumption	Weight
CW-EVAP02	Portable Evaporative Air Cooler, 280W	.28 K/W	50 sqm			
CW-EVAP03	Portable Evaporative Air Cooler, Single Direction	1.1 K/W	150 sqm	300 L	15 L/H	110 kg
CW-EVAP04	Portable Evaporative Air Cooler, Multi Direction	1.1 K/W	150 sqm	300 L	15 L/H	105 kg

# Portable Air Conditioners

## CoolWorker® Portable Air Conditioners

The CoolWorker® Portable Air Conditioners offer an effective cooling solution for many commercial and industrial applications. It features spot cooling for large areas where cooling of the entire area is not practical.

A control panel provides ease of use and contains a self-diagnostic function and display, showing operating modes, room and set temperatures, and faults.

### FEATURES

- ✓ Easy installation
- ✓ Cleanses & dehumidifies the air
- ✓ Washable filter
- ✓ Self-diagnostic System

CW-PAC01/CW-PAC02

CW-PAC03

## Portable Reverse Cycle Air Conditioner

Portable Reverse Cycle Air Conditioner is ideal for spot cooling or heating which utilises a dedicated thermostat. In auto mode, it activates either cooling or heating according to the target temperature. It's the perfect all year round solution.

**PRODUCT CODE:** CW-PAC04

Product Code	Description	Cooling Capacity (KW/BTU)	Cooling Area	Fan Speed	Weight
CW-PAC01	Portable Air Conditioner, 4.7kw	4.7 / 16,000	40 sqm	2	86 kg
CW-PAC02	Portable Air Conditioner, 6.1kw	6.1 / 21,000	50 sqm	2	88 kg
CW-PAC03	Portable Air Conditioner, 9.4kw	9.4 / 32,000	100 sqm	3	110 kg
CW-PAC04	Portable Reverse Cycle Air Conditioner 4/4.3kw	4 / 13,600	32 sqm	6	86 kg

# CoolWorker® Tents

CoolWorker® offers a range of high-quality tents that are constructed to shield against the harsh Australian weather. Our tents feature class leading canopy height to provide spacious headroom. All legs are 6-position height adjustable, perfect for uneven surfaces.

CoolWorker® Tents come in three sizes with optional 600D PVC-lined Polyester walls to match your requirements.

## Tent Canopy

- » High-quality PVC lined Polyester results in 100% waterproofing
- » 330+ GSM Fabric Thickness
- » Heat applied seam-sealing treats all stitched edges
- » Double stitched using resilient Polyester thread.
