# Dozer Maintenance Mats

Our Dozer Maintenance Mats are available in three sizes to match the specific needs of your machinery. Made of heavy-duty composite materials, they are designed to withstand the weight and wear and tear associated with heavy construction equipment.

## Benefits

- Provision of a protective barrier between the equipment's tracks and the ground. This prevents damage to ground service by distributing the weight of the dozer's tracks over a larger area.
- Creation of a safe work environment by reducing the risk of accidents caused by slippery or uneven surfaces.
- Efficient maintenance and repair time as they provide a stable surface for access to the undercarriage, making it easier to perform tasks safely and efficiently.
- Environmental protection by helping to contain spills or leaks of fluids, preventing contaminants from entering the ground.

Product Code	Description	Colour	Dimensions	Weight
DMM01	MAXSafe Dozer Maintenance Mat – One Piece	Yellow	720mm W x 1200mm L	12kg
DMM02	MAXSafe Dozer Maintenance Mat – Foldable	Yellow	720mm W x 2000mm L	20kg
DMM03	MAXSafe Dozer Maintenance Mat – Foldable	Yellow	610mm W x 2000mm L	10kg
