# Retractable Safety Reel Support Stand

Our Retractable Safety Reel Support Stands have been specifically designed to suit the Retractable Safety Reels.

Product Code	Description	Dimensions
MAX-SST01	Retractable Safety Reel Support Stand	1000mm H x 900mm W
MAX-SST02	Retractable Safety Reel Support Stand on Pneumatic Wheels	1250mm H
MAX-SST03	Retractable Safety Reel Stand with Fork Pockets & Hook	1000mm H x 900mm W
MAX-50ALU-MM	50mm Safety Yellow Powder Coated Aluminium Stanchion with Magnetic Base & Reflective Bands	1500mm H

One of the main problems with retractable barriers is that the strong tension needed to make the barrier retract can often be too strong for the stand or cone being used to mount the barrier, leaving the barrier and cones or stands in a heap on the floor.

This is not an issue for our Retractable Safety Reel Support Stands, which can easily hold the tension of the Safety Reels. The stand is made from powder-coated metal and can be used with magnetic mounts or aluminum clamps. You can also daisy chain them together to cordon off machinery or areas.
