

# Unibank

## Create the Power

EDITION 2

# Introducing Unibank

Accumax Global brings you Unibank™; an international award-winning unique power bank that's rechargeable through its pull cord.

Ideal for remote and regional work locations, where a power source may not be readily available, simply pull the cord to charge the device, or power it via USB.

Just 90 seconds pulling power provides 25 minutes talk-time.

Along with this ground-breaking technology, Unibank™ offers a choice of attachments, including but not limited to a panic alarm, controlled from an intuitive, feature rich, free iOS and Android app.

Accumax is bringing safety to the next level, ensure your team are safe on the job with the Unibank™ to charge their device, wherever they are.

## Versatile attachments

Get the most out of your Unibank by purchasing the Unibank attachments and make your unlimited power work even harder.

## Power Indicator LEDs

Easily see how much charge your Unibank has by checking the four LED lights on the case.

## USB Input/Output

Charge your Unibank by the mains or power your USB chargeable devices from your Unibank via the USB port.

## Pull and power

Simply pull the cord for 90 seconds to generate up to 25 mins of talk time.

## Intelligent, integrated app

See your Unibanks charge, program your attachment settings and customise your Unibank via the app available on iOS and Android.

# Overview

Unibank™ is a unique pull & power charger. Simply pull the cord to charge the device, or power it via USB. Pulling the cord for just 90 seconds can give you 25 minutes talk time on a smartphone.

With its innovative technology and unlimited capacity, Unibank™ has the power to keep you connected, wherever you are.

## KEY FEATURES

- » Unique pull & power charger
- » Can also be charged by USB
- » Built in LED torch
- » LED power indicators
- » Choice of four attachments
- » Free app for iOS and Android
- » High grade components
- » Environmentally friendly
- » Worldwide safety standards
- » User friendly

## Product FAQs

### Q. How can I check the battery level?

- A. Once switched on, the four indicators on top of the Unibank™ represent battery life in 25% increments, combine Unibank™ with the app to get a displayed battery level breakdown.

### Q. Can I use the Unibank™ in cold temperatures?

- A. It is recommended that any power bank is operated between -5 to 45°C.

### Q. What is best practice when charging the Unibank™?

- A. The Unibank™ can be charged via its pull cord or a USB cable. We recommend charging the Unibank™ via USB at least once every 2-3 months to avoid complete battery depletion.

The Unibank™ Power Bank

## INPUT/OUTPUT

- » Input and Output 5v 2A
- » USB
- » Micro USB

The Unibank app seamlessly connects to your smartphone via Bluetooth®. The app shows an in-depth analysis of both the Unibank's and the smartphone's charge levels.

## DIMENSIONS

**LENGTH:** 182mm  
**WIDTH:** 84mm  
**DEPTH:** 45mm  
**WEIGHT:** 344.7g

# Unibank Attachments

## Ambient Light

Worksites can be busy hubs of activity and working during the night, underground or in dimly light areas can be hazardous. Set the ambient light to heighten your visibility, also handy to have on hand when you need to shine some extra light on a task at hand.

### OVERVIEW

The ambient light attachment is a smart, bright, RGB light that can be set to thousands of colours via the free Unibank™ app.

The light can also be used in conjunction with Unibank's body clip to connect to a belt, or a person's arm – providing personal illumination.

### KEY FEATURES

- » **Take it with you** – Unibank's portable light attachment brightens up any worksite and never runs out of power
- » **Thousands of colours** – Use the full colour spectrum to create safety and be seen in your surroundings. Be bright and vibrant or tone it down with a soft, white glow. The choice is yours with Unibank's colour wheel
- » **Smart control** – Lighten up. Colour up. Create light instantly from the free and easy-to-use Unibank™ app. Just connect the light and download the app to get started

**LENGTH:** 70mm  
**DEPTH:** 36mm

**WIDTH:** 70mm  
**WEIGHT:** 47.2g

**WATTAGE EQUIVALENT:** 10w

### Product FAQs

**Q. Will the light attachment work with any other charging sources?**

A. No, it will only function while connected to the Unibank™.

**Q. How many colour variances can you save on the app?**

A. You can have as many as you like.

**Q. How long will the light bulb last?**

A. LED bulbs should last at least 20,000 hours.

The ambient light attachment and Unibank™ power bank

# Panic Alarm

Unique personal safety attachment to keep safe and secure. Use as a loud, 120 decibel alarm or pair with your smartphone to send an emergency text to your base. When linked with the app, your GPS coordinates are provided to your emergency contact. Regardless of the scale of your worksite, should you be in distress, Accumax will make you easy to locate.

## OVERVIEW

The panic alarm attachment can be used as a basic alarm, which activates a 120dB siren, or as a more advanced alert system when paired with the user's smartphone.

The alarm function can be triggered by the simultaneous depression of two buttons mounted on the side (smartphone function), or pressing the top button (siren).

## Product FAQs

**Q. What happens if I press the two buttons on the side of the Unibank™ accidentally?**

A. By pressing the two buttons, it will send off a text to your specified recipients. If this is an accident, then you must inform them that this is not an emergency.

**Q. Is the panic alarm only designed for people in the care worker industry?**

A. No, the panic alarm can provide security to anyone who may be in a vulnerable position.

**LENGTH:** 65mm

**WIDTH:** 72mm

**DEPTH:** 36mm

**WEIGHT:** 50.5g

**PANIC ALARM DECIBELS:** 120

## KEY FEATURES

- » **The power to protect** – Keep yourself safe with Unibank's personal panic alarm attachment. Use as a loud, 120 decibel alarm or pair with your smartphone to send emergency texts to your contacts
- » **Smart safety, smart control** – The free Unibank™ app allows you to set a personalised SOS message, along with your GPS coordinates. Choose a selection of contacts to receive the alert
- » **Smart safety, smart control** – For even more robust security, Unibank™ has a partnership with Lone Worker Solutions to provide a multi level security solution. You can send your alert directly to a dedicated control centre, who can subsequently escalate the alert to various levels, including to the emergency services

The panic alarm attachment and Unibank™ power bank

# Unibank Protection

Protective cases and versatile clips mean you can take the power anywhere. The protective silicone jacket provides increased protection from falls and scratches, as well as improved water ingress protection. Whether you're operating machinery, a warehouse or getting your hands dirty, you can let your hands be free, with the body clip or arm strap, perfectly designed to attach to a belt or wrap around your arm.

## Body Clip & Arm Strap

Attach Unibank™ to a belt, or wrap it around your arm with this body clip accessory. The clip simply screws to the underside of the Unibank™ power bank for a secure attachment.

**LENGTH:** 104.5mm    **WIDTH:** 58.4mm  
**DEPTH:** 22.7mm    **WEIGHT:** 24.1g

### KEY FEATURES

- » Connect Unibank™ to a belt, or your arm
- » Features a detachable clip, and supplied with an high-quality arm strap
- » Screws to the Unibank's underside panel
- » Comfortable neoprene material
- » Easy to attach
- » Allows variable degree of usage

### PRODUCT FAQS

- Q. Can the arm strap be adjusted to fit over high visibility/PPE jackets?**
- A. Yes, the length can be adjusted via hook and loop to fit over bulky clothing.

## Protective Silicone Jacket

The protective silicone jacket is an official Unibank™ accessory which provides increased protection from falls and scratches, as well as improved water ingress protection.

**LENGTH:** 146mm  
**WIDTH:** 90mm  
**DEPTH:** 42mm  
**WEIGHT:** 60.7g

- ✓ Available in attractive colours
- ✓ Easy to clean
- ✓ Light, soft and flexible

### KEY FEATURES

- » **Precise fit** – Engineered to protect the Unibank™ unit while allowing easy access to its pull cord, underside panel, and attachments
- » **Enhanced grip** – The soft-touch silicone and honeycomb over-moulded pads add nonslip protection and improved grip
- » **Robust protection** – Straightforward protection against bumps, scratches, accidental drops, and water ingress

### PRODUCT FAQS

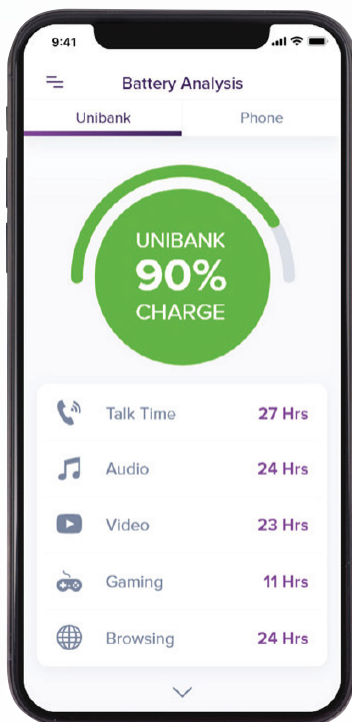

- Q. How many colours are available for the protective silicon jacket?**
- A. Initially the protective silicon jacket is available in purple and yellow, with more colours to follow.
- Q. Can I still charge the Unibank™ via the pull cord when the jacket is on?**
- A. Yes, the jacket does not inhibit the use of the pull cord.

# Unibank App

## The App

A free, feature-rich app that gives you total control of your power bank and attachments. Available from both Google Play and the App Store, accessibility and download is made easy. From battery analysis, operation of the ambient light and the panic alarm, the app is the perfect partner for the power bank.

### BATTERY ANALYSIS

This part of the app will show in-depth analytics of both the Unibank's and the smartphone's batteries, including estimated battery life available under various conditions.

Graphics will show power up/depletion levels and rates. The app utilises as much data as is useful and available from both the Unibank™ system and the smartphone and displays it in an easy-to-understand interface.

### AMBIENT LIGHT

The ambient light app utilises a colour wheel and brightness slider to allow the user to pick any colour from the spectrum. Colours can be saved by simply pressing the '+' icon.

The light is also toggled on and off from the app.

### PANIC ALARM

The free\* version of the panic alarm's accompanying app allows the user to create a personalised SOS text message to send to a selection of chosen contacts. The emergency message can also include GPS coordinates.

The panic alarm also has an optional paid-tier subscription, which provides a multi-level lone worker panic alarm solution, with MITIE providing the end user service and response.

\*Due to device restrictions, the iOS version of the app requires users to purchase credits after an initial, 10 free credits are used. The Android version can send unlimited, free messages.

# Create Safety
