

Expanding **Barrier**

EDITION 2

Expanding Barrier

The Portable Barrier is suitable for indoor and outdoor use.

This Portable Barrier is simple to use. Lightweight design allows for easy expansion and retraction where required. A must for any worksite as its use is flexible. Made functional and durable it takes up minimal storage space and can withstand rough conditions. Considering safety always, Accumax has ensured the product is non-conductive polyethylene.

FEATURES

- » Can be used in both indoor and outdoor applications
- » Set this barrier in either a straight, curved or circular position
- » Non-conductive polyethylene construction provides additional safety when power tools or other electrical sources are present
- » Comes with reflectors
- » 16 articulating panels
- » 4 locking straps secure the barrier closed
- » 2 wheels make it easy to move around

The barrier can be set up in either a straight or curved position.

Our Expanding Barrier folds to a slim footprint for convenient transport and storage.
