SAFETY

Safety Steps

Handles on both sides

Anti slip surface

6 Rubber feet

MAXSafe Safety Step offers a range of portable solutions to increase individual height without compromising safety and efficiency. The increased reach can lessen the stress on your worker's arms and shoulders, improving overall productivity. Ideally used for accessing elevated storages or performing tasks that need extended reach but do not require a full-sized ladder.

SAFETY STEP – ORANGE

The Safety Step – Orange has a Safe Working Load of 150kg. It's lightweight yet strong and durable with its single mould construction.

- Ideal for a broad range of workplace environments
- 100% recyclable
- Easy to use
- Australian made

LONGSTEP – YELLOW

Our Longstep – Yellow provides a wider base for a superior foot stance and increased stability. It also lessens the need to reposition the platform during prolonged use. Made heavy duty to handle the tough Australian conditions.

RECTANGULAR 2 STEP – YELLOW

- Sturdy, UV stable, and lightweight
- Moulded non-slip tread
- Moulded handles for easy mobility
