

ACCUMAX
SAFETY

SlingGuard

Eliminate the accidents due to sling failure caused by the load's sharp corners with SlingGuard. The SlingGuard's broad range of products protects lifting slings from the abrasive edges and protrusions of lifted materials or equipment. Beyond improving site safety, SlingGuard provides cost savings with operational efficiency and extended service life of lifting slings.

SlingGuard Magnetic Edge Protector

The SlingGuard Magnetic Edge Protectors have embedded magnets to simplify placement on metal loads. These magnets are slightly recessed to prevent their damage and ensure a connection without scratching the painted load surface.

Coil SlingGuard Magnetic Edge Protector

Coil units allow for a secure protector fit within the centre and on top of a steel coil. They can be used with wire rope and chain slings and are designed specifically to be used when lifting loads through a bore hole.

SlingGuard Centre Coil Magnetic Edge Protectors are designed to be used INSIDE the bore or the centre of a steel coil. The horizontal surface of the centre coil unit is convex and fits the inside of a coil.

SlingGuard Top Coil Magnetic Edge Protectors are designed for THE TOP of the steel coil. Both the horizontal and vertical surfaces are flat, neither surface is curved.

Product Code	Description	Colour	To Suit	Quantity
SG-6-3-270 C TOP-1	150mm Top Coil	Blue	Strap SG-S2-6-2	Single
SG-6-3-270 C TOP-24	150mm Top Coil	Blue	Strap SG-S2-6-2	24 Pack
SG-6-3-270 C CTR-1	150mm Centre Coil	Blue	Strap SG-S2-6-2	Single
SG-6-3-270 C CTR-24	150mm Centre Coil	Blue	Strap SG-S2-6-2	24 Pack

SlingGuard

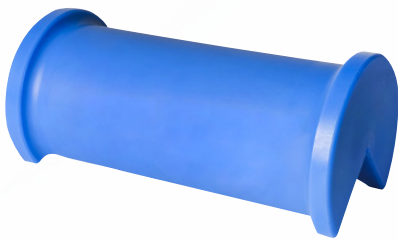

Medium Duty Magnetic Edge Protector

Medium Duty Edge Protectors are ideal for use with all synthetic web slings.

Heavy Duty Magnetic Edge Protector

Heavy Duty Edge Protectors are designed for the high pressure needs of wire rope and chain slings but can be used with synthetic slings.

Grooved Magnetic Edge Protector (0.5" Groove)

Grooved units securely fit the flanges of an "I-Beam" or the edge of a steel plate.

Replacement Edge Protector Magnet

Magnets to suit Edge Protectors.

Product Code	Size	Colour
SG-M-25	Small	Silver
SG-M-32	Large	Silver

WARNING

Ensure Protectors are clean and smooth before use. Do NOT use SlingGuard Edge Protectors that are bowed or discolored. These are signs of overloading.
