## Next Generation

Developed with a leading Australian Engineer and Manufacturer, MaxBund Next Generation Bunds will revolutionise the spill pallet market. A cost effective solution for storage of IBC's and Drums, the Next Generation Bunds range is designed with minimal footprint, and is fully compliant.

Without its grate, and instead a moulded lip to hold drums and Schütz IBC's above any spillage, the bunds can be stacked and take considerably less space, making transportation more cost effective and delivery timeframes reduced.

A product range that you won't find elsewhere and at a substantially lower investment than the traditional range, Next Generation is your solution to cost saving whilst retaining the highest quality of spill control.

### PRODUCT FEATURES:

- ✓ Highest of quality; designed and manufactured in Australia
- ✓ Nestable design; reduce storage and transportation costs resulting in stream-lined logistics
- ✓ No grate; replacement grate costs are voided
- ✓ Suitable for Schütz IBC range
- ✓ Product diversity; available in single and double IBC and 4 drums
- ✓ Stocked nationally; prompt delivery
- ✓ Engineer certified
- ✓ Fit for purpose
- ✓ Bung fitted
- ✓ Fully compliant to Australian Standards
- ✓ UV stabilised, chemical resistant Polyurethane
- ✓ Proudly made in Australia

# Next Generation IBC Bunds

## Single IBC Bund

### Single IBC Bund

Product Code	MXP6003
Dimensions	1500 x 1200 x 860mm
Weight	42kg
Bund Capacity	1100L
Rated Load Capacity	1500kg

## Double IBC Bund

### Double IBC Bund

Product Code	MXP6004
Dimensions	2130 x 1320 x 550mm
Weight	47kg
Bund Capacity	1100L
Rated Load Capacity	3000kg

# Next Generation 4 Drum Bund

## 4 Drum Bundled Pallet

The MAXBund 4 Drum Bundled Pallet is fully compliant for storing 4 x 205L drums with ample containment capacity to meet all relevant regulations.

The Next Generation 4 Drum Bund Bund requires no grates, making it easier to store and saves you from grate replacement costs. Its packed with features MAXBund Poly Bunds are known for — UV stabilised, chemical resistant Polyurethane, made of highest quality, designed and manufactured to handle the tough Australian conditions.

### 4 Drum Bund

Product Code	MXP1003
Dimensions	1200 x 1200 x 300mm
Weight	17kg
Bund Capacity	230L
Rated Load Capacity	1000kg

**NOTE:** Polymer materials used in these products meet stringent AS/NZ standards and consistently exceed UV performance requirements of being exposed to the intense nature of arguably one of the world's toughest environments. A superior material performance is delivered across a range of factors including long service life, high impact resistance and abrasion, high tolerance to environmental stress cracking and long term resistance to UV degradation.
