Raising the Safety Standard

Dangerous Goods Storage

160L Flammable Storage Cabinet

The MAXSafe 160L Flammable Storage Cabinet provides secure indoor containment for flammable liquids in industrial and workshop environments. Engineered for durability and compliance, it helps support safer handling and organised storage of hazardous materials in high-use workplaces.

Its robust steel construction, smooth-access doors, and practical storage layout make it suitable for demanding day-to-day operations where safety and reliability are essential.

Key Features:

- » 2 doors, 2 shelves
- » Patented automated/sequential closing and self-locking mechanisms
- » Panels and doors insulated with 40mm double skin
- » Alloy contact points - no spark risk
- » Underside base skids for ease of moving with forklift or pallet trolley
- » Underside safety strapping to prevent cabinet tipping over
- » High gloss powder coat finish
- » Keys lock door handle and three point latch locking
- » Doors open 180 degrees
- » Dual side vents
- » Adjustable shelf height
- » Built to comply with AS1940

Specifications

Product #	MAX-FC160
Description	160L capacity, 2 doors, 2 shelves
Dimensions	1295 H x 1100 W x 500 D mm
Weight	105kg
