

Dangerous Goods Storage

250L Flammable Storage Cabinet

The MAXSafe 250L Flammable Storage Cabinet is designed to provide dependable indoor storage for flammable liquids in industrial, workshop, and commercial environments. Its large-capacity design supports efficient organisation of hazardous materials while helping maintain safer day-to-day operations.

Built for demanding workplaces, the cabinet combines durable construction with practical accessibility, making it ideal for facilities requiring compliant and secure chemical storage solutions.

Key Features:

- » 2 doors, 3 shelves
- » Patented automated/sequential closing and self-locking mechanisms
- » Panels and doors insulated with 40mm double skin
- » Alloy contact points - no spark risk
- » Underside base skids for ease of moving with forklift or pallet trolley
- » Underside safety strapping to prevent cabinet tipping over
- » High gloss powder coat finish
- » Key lock door handles and three point latch locking
- » Doors open 180 degrees
- » Dual side vents
- » Adjustable shelf height
- » Built to comply with AS1940
